

Essential Urology in General Practice

**By Mani Arya, Iqbal S. Shergill,
Nitika Silhi, Philippe Grange,
Simon R. Bott**

ISBN-13: 978-1-85642-372-4; ISBN-10: 1-85642-372-7;
250 x 158 mm; p/back; 170 pages; publication winter 2008; £29.99

Essential Urology in General Practice has been written by consultant urologists in partnership with general practitioners and is currently the only textbook of its kind. Its aim is to provide the busy General Practitioner with comprehensive coverage of the simple and common urological conditions that regularly present in primary care consultations.

The book has been organised to include:

- Sample case histories
- History taking and examination
- Relevant investigations
- Further management with evidence based practice

References have been kept to a minimum and are those texts which in the authors' opinion are considered to be particularly significant.
