Urological Emergencies in Hospital Medicine

Iqbal S Shergill, Mani Arya,
Hiten R Patel and Inderbir S Gill

ISBN-10: 1-85642-337-9; ISBN-13: 978-1-85642-337-3; 234 x 156 mm; p/back; 234 pages; publication June 2007; £29.99

In association with the *British Journal of Hospital Medicine*
**Edited by Iqbal S Shergill, Mani Arya, Hiten R Patel
and Inderbir S Gill**

Urological emergencies form a significant proportion of all medical and surgical admissions, and clinicians dealing with them may or may not have had previous training or knowledge of urology. Furthermore, with most junior doctors and medical students now having minimal clinical exposure to this important specialty, a concise and up-to-date guide to the diagnosis and management of urological emergencies was required. This book will allow anyone, without previous urological knowledge, to be able to make an accurate diagnosis and have a treatment plan for all urological emergencies.

Specifically, this text has been produced with day-to-day practice in mind, and encourages the reader to adopt a simple and practical approach to all urological emergencies, with an emphasis on basic principles of emergency management, a multi-disciplinary approach (involving nursing staff, radiologists, intensive care clinicians and emergency staff) and application of basic principles of urological practice.

With urological emergencies making up one-eighth of the new FRCS(Urol) final examination, each chapter has also been written with the specialist UK urological trainee in mind and it is anticipated that this book will become an essential part of all urological trainees' reading portfolio. Finally, this book will also supplement the new Practical Skills in Urological Emergencies course for junior doctors and nursing staff, which has been recently organised and successfully introduced, in the UK, by the editors.

Iqbal S. Shergill is Specialist Registrar and Clinical Research Fellow, Institute of Urology and The Prostate Cancer Research Centre UCL, London, and St Bartholomews and The Royal London Hospital; Mani Arya is Specialist Registrar in Urology and Molecular Urooncology Research Fellow, Institute of Urology and The Prostate Cancer Research Centre, UCL, London; Hiten R. Patel is Consultant Laparoscopic Urological Surgeon, Honorary Senior Lecturer and head of Section Laparoscopic Urology, Institute of Urology, UCL, London, and Inderbir S. Gill is Head of Laparoscopic and Minimally Invasive Surgery, Cleveland Clinic Foundation, Ohio, USA.
