Transurethral Resection of Bladder Tumour Consent Form

Special communication requirements (e.g. need for interpreter, visually impaired)	
Proposed procedure or course of treatment: (include brief explanation if medical term not clear)	Transurethral Resection of Bladder Tumour. This involves the telescopic removal of bladder tumour with heat diathermy.
Other procedures/treatment which may become necessary during the procedure:	To deal with complications if they occur
Anaesthetic: <input type="checkbox"/> General <input type="checkbox"/> Spinal <input type="checkbox"/> Local	Blood transfusion: If bleeding excessive

Statement of health care professional (to be filled in by health care professional with appropriate knowledge of proposed procedure, as specified in Consent Policy)

I have explained the procedure to the patient. In particular, I have explained the following.

Benefits: the intended benefits of this procedure/treatment are:

- To diagnose and treat lesion in bladder suspicious for malignancy

Risks: Common

- Mild burning or bleeding on passing urine for short period after operation
- Temporary insertion of a catheter for bladder irrigation
- Need for additional treatments to bladder in attempt to prevent recurrence of tumours including drugs installed in to the bladder

Occasional

- Infection of bladder requiring antibiotics
- No guarantee of cancer cure by this operation alone
- Recurrence of bladder tumour and / or incomplete removal

Rare

- Delayed bleeding requiring removal of clots or further surgery
- Injury to urethra causing delayed scar formation
- Damage to drainage tubes from kidneys requiring additional therapy
- Perforation of the bladder requiring a temporary urinary catheter or open surgical repair

Alternatives: I have also discussed what the procedure is likely to involve and any concerns of this patient. I have also discussed having no treatment and the following alternatives:

- Open surgical removal of bladder. Chemotherapy or Radiation Therapy.

Further supporting information – I have provided the following leaflet /tape _____

Signature.....Name (PRINT).....Date ___/___/___

Job title.....Contact Details.....

Statement of interpreter (where appropriate)

I have interpreted the information above to the patient, to the best of my ability, and in a way in which I believe they can understand.

Statement Of Patient

Please read this form carefully. If your treatment has been planned in advance, you should already have your own copy, which describes the benefits and risks of the proposed treatment. If not, you will be offered a copy now. If you have any further questions, do ask – we are here to help you. You have the right to change your mind at any time, including after you have signed this form.

- I agree to the procedure or course of treatment described on this form.
- I understand that you cannot give me a guarantee that a particular person will perform the procedure. The person will, however, have appropriate experience.
- I understand that I will have the opportunity to discuss the details of anaesthesia with an anaesthetist before the procedure, unless the urgency of my situation prevents this. (This only applies to patients having general or regional anaesthesia.)
- I understand that any procedure in addition to those described on this form will only be carried out if it is necessary to save my life or to prevent serious harm to my health.
- I agree that any tissue removed and the results of diagnostic tests may be used for teaching, audit and research that could benefit other patients.
- I have been told about additional procedures, which may become necessary during my treatment. I have listed below any procedures, which I do not wish to be carried out without further discussion.
